

# Plastic Claus buckets

Bechtel supplies plastic Claus elevator buckets made of PEHD and nylon ex stock. Besides, PU and zytel are also available. Plastic elevator buckets lend themselves par-

ticularly well to the transport of wet, sticky or fatty products. Another advantage is that plastic elevator buckets do not strike a spark even if the belt is misaligned.

Claus elevator buckets made of plastic (parameters in mm)

Type	Size/weight					Volume	Holes		Max.			
	b	a	h1	h2	t		Z2	Z3		d	e	no. bckts/m
